CHILDREN'S SHOE SHOP Third Floor

EVERY one of those first steps in those first years needs a protection and support that are scientifically true to the delicate construction of a baby's foot.

That is why the Specialist shoe, designed especially for us by an orthopaedic surgeon, is the correct covering. Roomy, thoughtful of every little toe, befriending every little step, it belongs as inevitably to a baby as the crystal slipper did to Cinderella.

## Remarkable Prices on Bohn Refrigerators

"Syphon," "Sanitor," "Icyco" and All-Metal "Ideal"

All Manufactured by Us and Sold With Our Guarantee, at Prices Which Cannot Be Equalled, Ranging From \$25.00 Up

The reasons for this remarkable sale at this time are simple. The worst freight embargo and blockade in the history of transportation in this country tied up many carloads of our Refrigerators for weeks, and then suddenly dumped them all on us at once. Many of these Refrigerators, built for the best export trade, could not be shipped because of impossibility of securing cargo space, and storage space also is practically impossible to secure. You receive the benefit of these disastrous conditions.

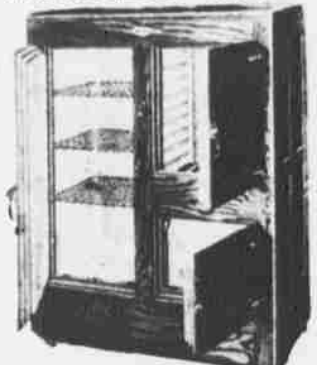

Discounts in some cases are 30% from regular list prices. Because of the principle upon which it is constructed, the Bohn Syphon Refrigerator not only keeps the food very cold and absolutely dry and pure, but uses less ice than any other Refrigerator ever built. This is an important factor, for it means that with the usual high price of ice every summer the actual saving in ice will in time pay for the Refrigerator itself.

On a small deposit we will hold any Refrigerator for future delivery. Act quickly! These special prices are offered for a short time only.

## The only WASHING MACHINE that WASHES and DRIES without a wringer.

Washing by the Vacuum Cup process—15 minutes does a wash.

ANY good washing machine will wash clothes but the Laun-dry-ette alone dries them without the use of a wringer. You can now wash without ruining your hands.

It washes the sheerest, daintiest silk, linen or lace garments or the heaviest blankets, woollens and comforters in fifteen minutes and dries them in one minute.

The Laun-dry-ette washes by the vacuum cup process, the most effective method known. It dries by the centrifugal process, the clothes being literally whirled dry without a wrinkle, making them easier to iron.
